

2003 Chevy K1500 Sierra 4x4
Fitch Unit F3824

My truck is running a lot better I filled up the gas tank last Monday. A week ago my trucks a 2003 Chevy 100k miles 4x4, I've driven around town for a week stop and go traffic and today my gas gage says 3/4 of a tank of fuel. so id say the fitch works and I'm glad its on my truck, before I'd get maybe 3-4 days driving around town before my gas gage said 3/4 now its 7 days. I'll keep you posted oh my way of saying thanks I gave you add space on my website to say thanks. I get a lot of traffic and friends and family to my site I'm going to be towing my boat soon pulling it out of storage so cant wait to check fuel mileage while towing. Gary Jones
